Thanks for filling out [Project Preference Form](#)

Here's what was received.

Project Preference Form

Your email (singharzaan@gmail.com) was recorded when you submitted this form.

Rank *

☒ Undergraduate Student

☐ Graduate Student

I have a project partner.

☒ Yes

☐ No

☐ Does not apply [Graduate Students]

☐ I would like to add one [Graduate Students]

Team Member 1 *

Arzaan Singh

Team Member 2

Graduate students without a project partner please leave it blank.

Ethan "Kristoff" Kraus

Project Title *

Freaky Financials

I have one or more datasets. *

- ☒ Yes
- ☐ No
- ☐ Still looking

Project Idea *

In less than 250 words, please describe your project idea and list any datasets you have found.

We have a few ideas for the final project focusing on the finding relationships between stock market returns and financial signals/indicators. We will use at least the following two data sources/sets: Federal Reserve Economic Data (FRED):

<https://fred.stlouisfed.org/> Links to an external site. CapitalIQ: Capital IQ Links to an external site. These datasets (and others We are looking at) should help us answer: How and what economic data correlates with total stock market returns? Are there any leading economic indicators? Are they descriptive, diagnostic, predictive, or prescriptive? And hopefully much more. We will also use this data to try to understand current economic and financial theory taught in our classes.

Anything else you would like to share? *

Nothing as of yet.
